

The **USGenWeb Project** is a group of volunteers working together to provide free online genealogy help and information for every U.S. state and county. Our national site provides links to state sites, which, in turn, provide gateways to the counties. We also sponsor important Special Projects, gathering useful data you can access for free. The variation you'll see in site style and content shows the wonderful diversity of our volunteers.

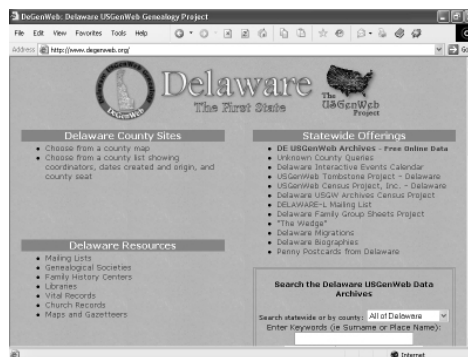

The **DEGenWeb Project** was established in 1996 by a group of genealogists who shared a desire to create an online center for Delaware genealogical research. Our three county web sites, as well as the

state web site, have been created and are maintained by volunteers, and feature query boards, listings of local sources for records, county and state histories, online genealogy books, research tips, maps, links to helpful internet resources. You'll even find transcribed records online, accessible for free from the comfort of your home. Our state's Special Projects, such as the Tombstone Project and the Census Projects, assist in the effort to gather these record transcriptions. The USGenWeb Archives are the main repository of the data, which is provided by helpful contributors - people just like you! If you have access to any records (such as wills, census, deeds, vital records, church records and more), we welcome and encourage you to transcribe and contribute them to DEGenWeb, where they'll be accessible, for free, to everyone. Please visit our "Contribute" page -

<http://www.rootsweb.com/~usgenweb/de/contribute.htm>  
- for more information.

We at DEGenWeb take pride in our work, and we hope you find it useful as you search for your Delaware ancestors.

Dear Delaware Researcher,

I'd like to introduce you to a team of volunteers that I consider to be one of the finest in The USGenWeb Project - DEGenWeb's team of county coordinators.

We may be small in number, but we are big on Delaware genealogy! Our Delaware County Coordinators share a love of genealogy and the State of Delaware, a knack for gathering information and creating web pages, and a desire to help others in the quest for their ancestry.

I invite you to visit each of our 3 county web sites to see for yourself all of the great information and data these volunteers have gathered for you. You can access each of the sites from our County Selection Table (<http://www.degenweb.org/table.htm>) or our Clickable Map County Selector (<http://www.degenweb.org/map.htm>). I'm confident that you'll find much to interest you and to help you in your research, no matter when in Delaware's long and proud history your ancestors called it home. From the original inhabitants, the Lenni-Lanape and the Nanticoke, to the early Dutch and Swedish settlers, to the patriots who made Delaware the first of the original thirteen states to ratify the Constitution, DEGenWeb proudly celebrates the rich heritage of the first state.

Sincerely,

Shari Handley  
State Coordinator  
The DEGenWeb Project
